

Ali Nobahari

Analytics / Data Platform Engineer

Tehran, Iran · Alinobahari7661@gmail.com

PROFESSIONAL SUMMARY

Senior Data Analytics Engineer with 5+ years of experience in data infrastructure, analytics engineering, business intelligence, data warehousing, ETL, and business process automation.

Experienced in designing and developing data platforms, analytical models, BI systems, automated reporting, and data-driven solutions across digital business and power-generation environments.

EXPERIENCE

Senior Data Analytics Engineer — Bime Bazar · August 2025 – Present

- Led the data analytics engineering function across data infrastructure, data warehousing, semantic modeling, BI dashboards, and automated reporting.
- Worked across data architecture, analytics engineering, data modeling, automation, data integration, BI, reporting, and cross-functional collaboration.

Data Analytics & BI Consultant — Tejarat Fars Power Generation · December 2024 – Present

- Consultation, design, and development across finance automation, power-sales analytics, technical analytics, data warehousing, and managerial BI.
- Worked with temperature data, unit availability, generation capabilities, and estimation of produced and lost energy using ML models.
- Developed a model to estimate Megawatt-hour generation deration for power-plant units.

Senior BI Developer — Bime Bazar · December 2024 – August 2025

- Designed automated, real-time data pipelines for cash-flow management, operational revenue tracking, and settlement processes.
- Developed Time Series models for cash-flow forecasting and conducted sensitivity analysis.
- Architected and deployed the enterprise Data Warehouse, configured OLAP engines, and developed BI dashboards for C-level executives.
- Modeled user journeys and analytical funnels for BNPL and worked on KPI monitoring and root-cause analysis.

Senior Data Analytics Engineer — Tejarat Fars Power Generation · March 2023 – December 2024

- Designed, optimized, and monitored data infrastructure.
- Developed and implemented ETL processes for data integration.
- Created reports and dashboards for data-driven decision-making.

Business Data Analyst — Sepehr Arman Industrial Group · March 2022 – March 2023

- Applied data-analysis processes and data-driven insights to support strategic business objectives.

Business Analyst — SHABNAM PLASTIC IRANIAN · August 2021 – April 2022

- Designed and analyzed business systems, processes, relationships, and associated forms.

TECHNICAL SKILLS

Data Engineering: Python, SQL, ETL / ELT, Data Warehousing, Data Modeling, REST APIs, Apache Spark, Kafka, Airflow, dbt

Data Platforms: SQL Server, PostgreSQL, ClickHouse, Elasticsearch, DuckDB, MinIO, Parquet

BI & Analytics: Metabase, Power BI, Tableau, SSRS, SSAS, DAX, Statistical Data Analysis, Machine Learning, Time Series Analysis

Infrastructure: Docker, Linux, Git, GitHub, GitLab, GitHub Actions, FastAPI, N8N

EDUCATION

M.Sc. Industrial Engineering — Sharif University of Technology, 2017–2020 · GPA: 16/20

B.Sc. Industrial Engineering — Sharif University of Technology, 2013–2017 · GPA: 16/20

PROFESSIONAL TRAINING

Data Engineering — SEMATEC · 140 hours · 2024

BI Modeling — SEMATEC · 72 hours · 2023

Economic Data Analysis — Graduate School of Management and Economics, Sharif University of Technology · 24 hours · 2023

BPM according to BPMN 2.0 — Sharif University of Technology · 30 hours · 2021

LANGUAGE

English — Advanced
